11. Post-Assessment

1. Course Objective

Explore the boundless potential of cloud technologies with our CompTIA Cloud+ (CV0-003) course. Whether you're a seasoned IT professional or just starting your cloud journey, this course is designed to provide you with the skills and knowledge needed to excel in cloud computing. This course covers the core concepts and skills required for designing, implementing, and managing cloud solutions.

2. Pre-Assessment

Pre-Assessment lets you identify the areas for improvement before you start your prep. It determines what students know about a topic before it is taught and identifies areas for improvement with question assessment before beginning the course.

3. Exercises

There is no limit to the number of times learners can attempt these. Exercises come with detailed remediation, which ensures that learners are confident on the topic before proceeding.

4. Quiz

Quizzes test your knowledge on the topics of the exam when you go through the course material. There is no limit to the number of times you can attempt it.

5. flashcards

Flashcards are effective memory-aiding tools that help you learn complex topics easily. The flashcard will help you in memorizing definitions, terminologies, key concepts, and more. There is no limit to the number of times learners can attempt these. Flashcards help master the key concepts.

6. Glossary of terms

uCertify provides detailed explanations of concepts relevant to the course through Glossary. It contains a list of frequently used terminologies along with its detailed explanation. Glossary defines the key terms.

7. Expert Instructor-Led Training

uCertify uses the content from the finest publishers and only the IT industry's finest instructors. They have a minimum of 15 years real-world experience and are subject matter experts in their fields. Unlike a live class, you can study at your own pace. This creates a personal learning experience and gives you all the benefit of hands-on training with the flexibility of doing it around your schedule 24/7.

8. ADA Compliant & JAWS Compatible Platform

uCertify course and labs are ADA (Americans with Disability Act) compliant. It is now more accessible to students with features such as:

- Change the font, size, and color of the content of the course
- Text-to-speech, reads the text into spoken words
- Interactive videos, how-tos videos come with transcripts and voice-over
- Interactive transcripts, each word is clickable. Students can clip a specific part of the video by clicking on a word or a portion of the text.

JAWS (Job Access with Speech) is a computer screen reader program for Microsoft Windows that reads the screen either with a text-to-speech output or by a Refreshable Braille display. Student can easily navigate uCertify course using JAWS shortcut keys.

9. State of the Art Educator Tools

uCertify knows the importance of instructors and provide tools to help them do their job effectively. Instructors are able to clone and customize course. Do ability grouping. Create sections. Design grade scale and grade formula. Create and schedule assessments. Educators can also move a student from self-paced to mentor-guided to instructor-led mode in three clicks.

10. Award Winning Learning Platform (LMS)

uCertify has developed an award winning, highly interactive yet simple to use platform. The SIIA CODiE Awards is the only peer-reviewed program to showcase business and education technology's finest products and services. Since 1986, thousands of products, services and solutions have been

recognized for achieving excellence. uCertify has won CODiE awards consecutively for last 7 years:

11. Chapter & Lessons

uCertify brings these textbooks to life. It is full of interactive activities that keeps the learner engaged. uCertify brings all available learning resources for a topic in one place so that the learner can efficiently learn without going to multiple places. Challenge questions are also embedded in the chapters so learners can attempt those while they are learning about that particular topic. This helps them grasp the concepts better because they can go over it again right away which improves learning.

Learners can do Flashcards, Exercises, Quizzes and Labs related to each chapter. At the end of every lesson, uCertify courses guide the learners on the path they should follow.

QUESTIONS

Features

Each question comes with detailed remediation explaining not only why an answer option is correct but also why it is incorrect.

Unlimited Practice

Each test can be taken unlimited number of times until the learner feels they are prepared. Learner can review the test and read detailed remediation. Detailed test history is also available.

Each test set comes with learn, test and review modes. In learn mode, learners will attempt a question and will get immediate feedback and complete remediation as they move on to the next question. In test mode, learners can take a timed test simulating the actual exam conditions. In review mode, learners can read through one item at a time without attempting it.

13. Live Labs

The benefits of live-labs are:

- Exam based practical tasks
- Real equipment, absolutely no simulations
- Access to the latest industry technologies
- Available anytime, anywhere on any device
- Break and Reset functionality
- No hardware costs

Lab Tasks

Introducing Cloud Computing Configurations and Deployments

- Conducting Vulnerability Scanning Using Nessus
- Creating a Remote Access VPN Connection
- Connecting to a Remote Computer Using the Remote Desktop Connection

Cloud Deployments

- Configuring RAID
- Configuring DNS Settings
- Configuring DNSSEC

Security in the Cloud

- Disabling a Service
- Disabling User Accounts
- Setting Password Policies
- Installing Antivirus Software

Implementing Cloud Security

- Enabling Intrusion Prevention and Detection
- Using Windows Firewall

Maintaining Cloud Operations

- Creating a Cluster
- Importing a Virtual Machine
- Creating a New Virtual Machine
- Creating a Backup Schedule
- Creating a Backup
- Restoring Files

Disaster Recovery, Business Continuity, and Ongoing Maintenance

- Enabling an Access Control List
- Using Event Viewer

Cloud Management

- Authorizing a User
- Configuring the Account Lockout Policy

Cloud Management Baselines, Performance, and SLAs

- Checking Disk Capacity
- Verifying RAM Usage

Troubleshooting

- Testing Connectivity using the ping Command
- Assigning Different Classes of IP Addresses

Troubleshooting Networking and Security Issues and Understanding Methodologies

- Obtaining Information about Different IP Versions
- Using the tracert Command
- Using the nslookup Command
- Using the ipconfig Command
- Using the arp and netstat Utilities
